

Caroline's Tips: It's time to don our sunglasses and head back to 1983 to sip cocktails by the pool and perfect our suntan under the palm trees! 'Club Tropicana' by 'Wham!' is a hugely successful and popular song that fuses latin-jazz rhythms with George Michaels inimitable vocals. You will have your work cut out singing punchy brass lines and cool strings, with plenty of diction needed for the wonderful words! This song sums up everything we love about summer and I have no doubt this will be a huge Rock Choir hit! Cx
